WORK EXPERIENCE

- 2021 **Web Developer at DocConnect**
DocConnect is a startup by the team of Docs2Meds. This platform helps hospital and medical professional find each other. It tackles a recurring problem of deficit of medical professional be it chief surgeon, asst. surgeo, anaesthetist in the time of complex and emergency surgeries. I worked as a front end developer in this project. We used react with typescript mainly for the front end development.
- 2021 **Web Developer at SurgeryMaps**
SurgeryMaps is a web platform for making it easier for people to make a well informed decisions about their surgery. It helps people to know their options before choosing the final hospital, with customised options from Choosing their Chief Surgeon to even the Conditions of their hospital Rooms. This Project will help improve the healthcare scenario in India
- 2021 **Software Developer at PRCMS**
It is a software made to recognise people entering and leaving a company premises. It is used to mark in and out time for employees and inform concerned people if there is an unknown visitor there.
- 2020 **Chief Technology Officer at GoGrocy - A E-Commerce Website**
I build the complete website of GoGrocy by myself in less than a week. I Used Codeigniter and MySql for Back-end and Basic front end technologies for the front-end.
- 2019 **Web Developer of SPICMACAY NITR Chapter**
SPICMACAY NITR Chapter's website is a fusion between classical art and modern technolgies. Both Front-End and Back-End of this Website was build by me.
